DETAILED ACTION

Election/Restrictions

Claims 1-34 are pending.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-28 and 31-34, drawn to a method for making an infectious adenovirus, a recombinant adenovirus vector system and a cell, classified in class 435, subclass 91.4, 320.1 and 325.
- II. Claims 29 and 30, drawn to a method of vaccination or administering gene therapy, classified in class 424, subclass 93.2 and class 514, subclass 44.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the adenovirus vector of Group I can be used to express genes in isolated cells and the method of vaccinating or gene therapy of Group II can be carried out with patentably distinct vectors.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and because the search required for Group I (methods for making an infectious adenovirus) is not required for Group II (methods of vaccination and gene therapy), restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nancy T. Vogel whose telephone number is (703) 308-4548. The examiner can normally be reached on 7:30 - 4:00, Monday - Friday.
